Looking Ahead

Introduction

This statement is made as part of RE Recruitment's commitment to eliminating the exploitation of people under the Modern Slavery Act 2015 (the Act).

It summarises how we operate, the policies and processes we have in place, how we identify and manage the risks, and how we train our staff. It is published in accordance with section 54 of the Act and relates to the financial year, 1st of August 2022 to 31st July 2023. It was approved by the Board of Directors in August 2023.

About Us

RE Recruitment is a limited company operating in the recruitment sector. We provide essential recruitment services in various market sectors, including industrial, manufacturing, transport, logistics, hospitality, commercial and engineering. RE Recruitment consists of RE People Limited and RE Recruitment International SRL.

Details of our group structure are available [here](#).

We supply both temporary and permanent staff, operate ethically and in a worker's best interest. The Core Values that drive us to be a leading service provider within the markets we operate in are very important to us as a company and they consist of:

Guiding Principles

Collaborative

We work collaboratively towards a shared goal of becoming the best and most professional business partner our clients could wish for, becoming an extension of their team, helping to shoulder their burden, and achieving mutual success.

Authentic

We remain true to the principles that have brought the business to where it is now, never forgetting that we are a people business, and that developing long lasting, genuine and human relationships is key to our success.

Loyal

We're committed to the people around us, and demonstrate our loyalty by trusting, nurturing and supporting each other at every turn.

Inclusive

We're open-minded and listen carefully to all our colleagues' ideas and suggestions without pre-judgement. And we always remain mindful of our language and behaviour towards others.

Brave

We're never afraid to challenge the status quo and actively encourage each other to be bold and inventive in our thinking to find the best solutions possible for our clients, our candidates and our business.

Resilient

When faced with challenges, we show the strength of character needed to find new ways to get the job done, and to recover quickly from any setbacks we may face.

Empowered

Our biggest asset is our people and we want them to grow in confidence and ability - so we empower individuals to make their own decisions free from the shackles of bureaucracy and a strict KPI structure.

Our Commitment & Policies

We commit to developing and adopting a proactive approach to prevent, respond to, and remediate issues of Modern Slavery and human trafficking. Our policies are developed and approved by our Senior Management Team to reinforce legal and ethical obligations. They apply to all individuals working for us, and on our behalf, in any capacity. This includes direct employees, agency workers, contractors, clients, consultants, and business partners. We enforce the policies through training and regular communication with our staff, as well as via contractual arrangements with our customers. All policies are reviewed annually or more regularly where appropriate.

We have developed a Modern Slavery and Human Trafficking Policy which sets out main objectives for the business and outline our commitment to act legally, ethically and with integrity. It is supported by other internal documents, see pages 4 and 5.

The policies are based on the following standards:

Gangmaster and Labour Abuse Authority Licensing Standards
Ethical Trading Initiative Base Code
International Labour Organisation Fair Recruitment Initiative
The Employer Pays Principle
The Dhaka Principles for Migration with Dignity
The Guiding Principles on Business and Human Rights

Internal Documents

1

Anti-Bribery and Corruption Policy

This outlines our zero-tolerance approach to bribery, corruption, and fraud.

2

Public Interest Disclosure (Whistleblowing) Policy

This provides guidance on confidential reporting and sets out process of investigation.

3

Eligibility to Work Policy and Procedure

This provides details of, and business expectation related to right to work check process.

4

Responsible Recruitment Policy

This defines our recruitment methods and practises.

5

Ethical Trading Policy Statement

This outlines our commitment to ethical operations within the supply chain.

6

Incident Reporting Process (Modern Slavery)

This provides step by step guidance for our staff members on how to report any Modern Slavery red flags.

Internal Documents

7

Human Rights Policy

This outlines standards and principles we follow and expect from our stakeholders.

8

Young Workers Policy

This details measures the business takes to prevent risk to young workers.

9

Corporate Social Responsibility

This highlights our commitments and provide details of our cooperation with internal and external stakeholders.

10

Workers Handbook

This emphasises our values, outlines right and responsibilities of our workers and details ways of reporting concerns.

11

Modern Slavery Due Diligence Questionnaire

This is issued to customers and suppliers as part of our due diligence and risk assessment process.

Our Partners

We recognise the importance of collaboration, which can further increase potential in tackling Modern Slavery. We partner with experienced external consultants and organisations to strengthen our knowledge, capability to detect, prevent and report, as well as ensure continuous improvement. This includes:

- Gangmaster and Labour Abuse Authority - licenced provider since 2004
- Stronger Together - Business Partner since 2020 and Business Partner: Advanced since 2022
- SEDEX - registered member since 2016
- Recruitment and Employment Confederation - corporate member since: 2004
- Association of Labour Providers – member since 2004
- Customers and suppliers to ensure aligned approach.

“As part of our improvement strategy in 2022/23, we invited a former GLAA and police officer to collaborate. They have assessed our practices and provided suggestions for further progress based on their experience and knowledge.”

Training & Awareness

Our Modern Slavery training forms a fundamental aspect of raising awareness of the issue and is delivered as follows:

- All staff members undertake awareness training during their onboarding.
- Managers and recruiters attend more in-depth training sessions that focus: on indicators and reporting.
- Leadership Team training covers supply chain due diligence, wider: assessment of Modern Slavery risk and remediation for victims.
- Compliance and HR Team have additionally attended: Advanced Tackling: Modern Slavery in UK Businesses and Investigative Interviewing Skills in the: Workplace, delivered by Stronger Together.
- All workers are educated on Modern Slavery indicators and ways of: reporting concerns at the beginning of the relationship and receive multi-lingual awareness materials.

In 2022, we started to offer further support, training and help with policy development to our clients, who feel like they do not have sufficient knowledge about Modern Slavery risk areas.

Assessment & Management of Risk

Modern Slavery and human trafficking form part of our overall Business Risks, Opportunities and Interested Parties Register, which is managed by our Senior Management Team. It outlines any possible concerns associated within sectors we operate in, enables us to identify high risk areas and put measures in place to protect candidates, workers, clients, and us as recruiters.

As one of the Seasonal Worker Scheme Operators we are licenced by the: Gangmaster and Labour Abuse Authority and Home Office to recruit: overseas. Romania has become our main source country. To be able to: directly manage supply and therefore mitigate any possible Modern Slavery: risks, we opened a branch in Bucharest in 2022, which is managed by a: long-standing, highly ethical employee of ours.

Our due diligence and mitigation depend on the scale of the risk identified:

Recruitment Fees

We do not use third parties to recruit overseas and only employ recruiters, who are pre-assessed and experienced. We gather feedback from workers: about the onboarding process as part of anonymous surveys and internal: auditing, to assess our practises and identify areas for improvements.

Workers' Awareness

We deliver introductory training to all overseas applicants and explain: Modern Slavery indicators, ways of reporting and possible remediation: process. Workers are asked to download and use the Just Good Work app to: further ensure understanding of their rights in the UK.

Assessment & Management of Risk

Clients' Awareness

We assess our clients' practises by auditing them prior to supply, issuing Modern Slavery questionnaires as part of our due diligence process and gathering workers' feedback. We work with them to raise awareness, share resources as Stronger Together Advanced Business Partner or offer necessary training.

Governance

We have identified Modern Slavery Champions amongst our team, who are responsible for implementation of related policies and promoting a pro-active approach to tackle labour exploitation.

Processes

We assess our operations and training efficiency by regular internal audits and frequent files spot checks conducted by our Compliance Team. We generate reports of post codes that have been frequently provided by our workers to eliminate any Modern Slavery red flags associated with accommodation. What is more important, we gather feedback from candidates, workers and clients. By constant interactive communication, the assessment of our practises is more accurate.

How Do We Measure Our Performance

We have incorporated measurable factors into our strategy to enable us to track progress. In 2022 we became one of the Seasonal Worker Scheme operators, which required us to include relevant further indicators amongst general measures to focus on high-risk areas.

Key Performance Indicators for 2022/23 financial year:

Percentage of staff members trained on Modern Slavery and human trafficking

100

Number of cases of potential labour exploitation that we have investigated, none of which required further action from external bodies.

2

Percentage of workers interviewed as part of Modern Slavery Due Diligence. Feedback was gathered and analysed as part of Seasonal Worker Scheme and we interviewed 10% of our workforce overall.

93

Percentage of customers who undergo an audit as part of our Modern Slavery due diligence. All customers that we supply through the Seasonal Worker Scheme were audited and we issued Modern Slavery Due Diligence questionnaires to all existing clients across the business.

100

Number of partnerships developed to tackle labour exploitation. We have engaged with an experienced external consultant to improve our existing practises, offered training and assistance to 2 customers who have not had enough experience within Modern Slavery to develop internal policies.

2

Our Strategy

Our strategy remains focused on prevention and improvement. Baselines have been set for 2023/24 year, when we are planning to:

- strengthen our relationships with external stakeholders by increasing further the percentage of those who respond to our due diligence documents,
- assess workers' retention rates more thoroughly to identify any possible reasons for unsatisfactory experience,
- increase number of partnerships developed to tackle labour exploitation to strengthen our capabilities.

"Our strategy remains focused on prevention and improvement"

Looking Ahead

Tackling labour exploitation requires commitment. As a leading recruitment business within the area and part of the Seasonal Worker Scheme, we strive to continuous improvement. In 2023/24 we will continue promoting initiatives alongside local NGOs and spreading awareness directly amongst our workforce and through social media channels. We are planning to strengthen our collaboration with clients and other external stakeholders, as we are aware that aligned approach in tackling modern slavery can reach further.

James Gibbs
Group Managing Director
